

Ukraine-Netherlands Online Introductory Meeting for Water Organisations

The Ukraine Water Public-Private Partnerships Platform (UWP3) is an initiative by the Netherlands Enterprise Agency, commissioned by the Netherlands Ministry of Foreign Affairs to assist Ukraine in the recovery and reconstruction of the water sector alongside Ukrainian partners.

Thanks to the support of our Dutch government initiators, the UWP3 Platform is pleased to extend an invitation to your organisation to our **upcoming online meeting on June 29 at 16:00-18:00 hours** (Kyiv) or 15:00-17:00 hours (The Hague).

About the Platform

The UWP3 Platform is a group of 25 Dutch water sector organisations from the private, public, knowledge institutions and NGO sectors. These organisations are coming together to access information and resources on how to best support the recovery efforts and forming strategies to work on projects together with Ukrainian partners. The UWP3 Platform is the central point in the Netherlands connecting request of needs, information on resources, and water expertise.

Meeting Purpose

The purpose of the June 29th online meeting is for Ukrainian and Dutch water organisations in the private, knowledge, and NGO sectors to learn about each other's work and to reflect about possible areas of synergy for future collaboration.

UWP3 Platform Main Topics

- Master planning for building back better.
- Water quality restoration (water decontamination and wastewater)
- Water for food
- Water supply and distribution
- Local capacity building
- Infrastructure Reconstruction and Restoration
